- Municipal Climate Change Action Centre
MCCAC.CA

Brownfield Redevelopment

Positive steps:

- Address liability through improvements to the Remediation Certificate Regulation
- Incent redevelopment through property tax cancellation, deferrals or reductions.

More information and advocacy:

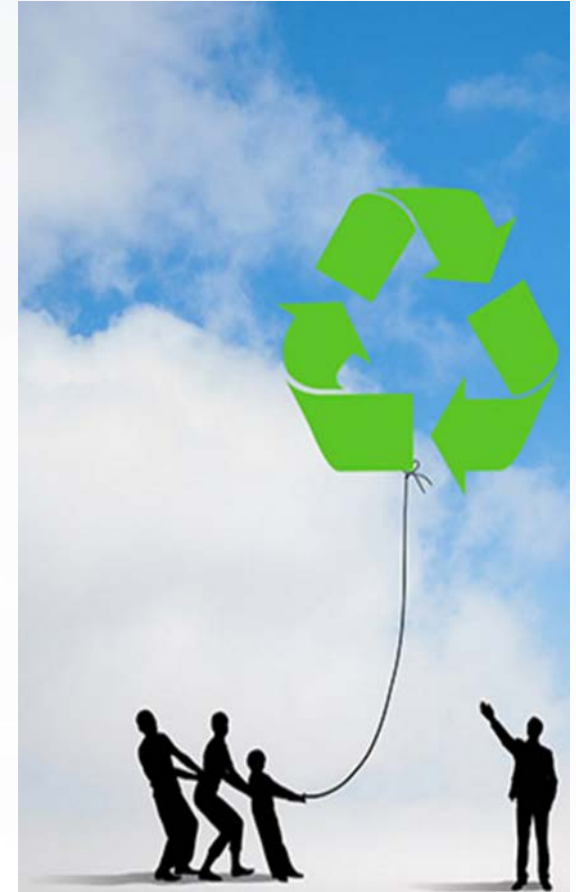

- Brownfields Hub

www.auma.ca/advocacy-services/programs-initiatives/brownfields

Recycling Regulations Advocacy Campaign

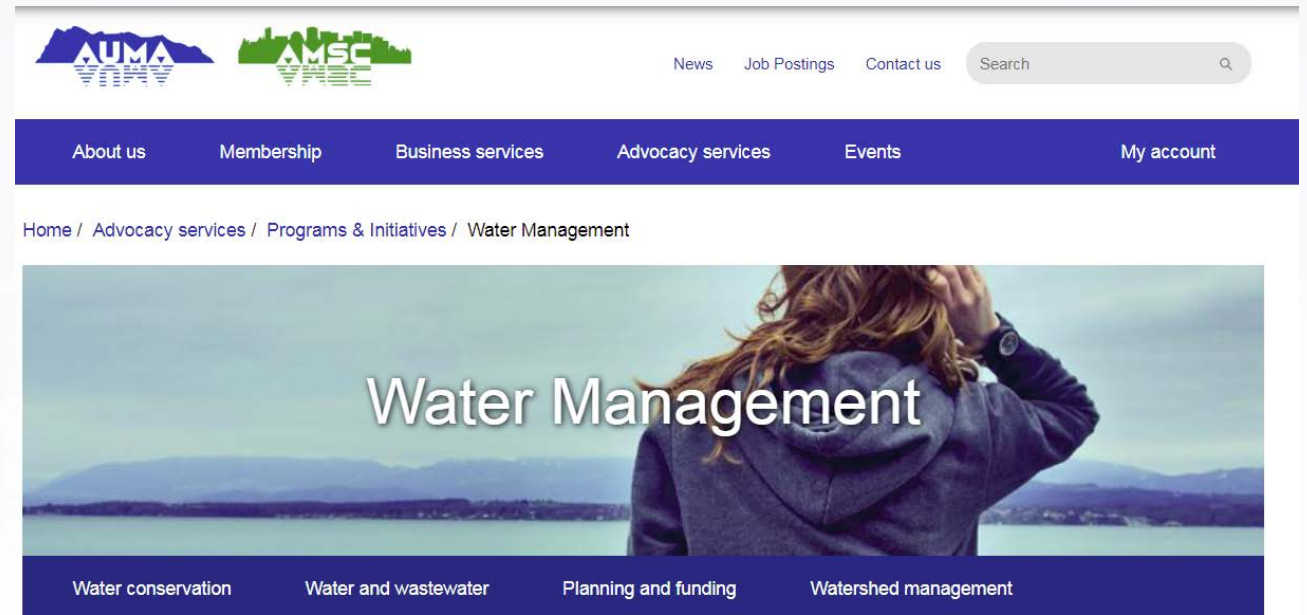

- Expand products covered by provincial recycling programs
- Provide greater flexibility in setting fees
- Support municipal waste reduction initiatives

Hubs

auma.ca/advocacy-services/programs-initiatives

- Brownfields
 - Waste Management
 - Water Management
 - Municipal Planning
- And more...

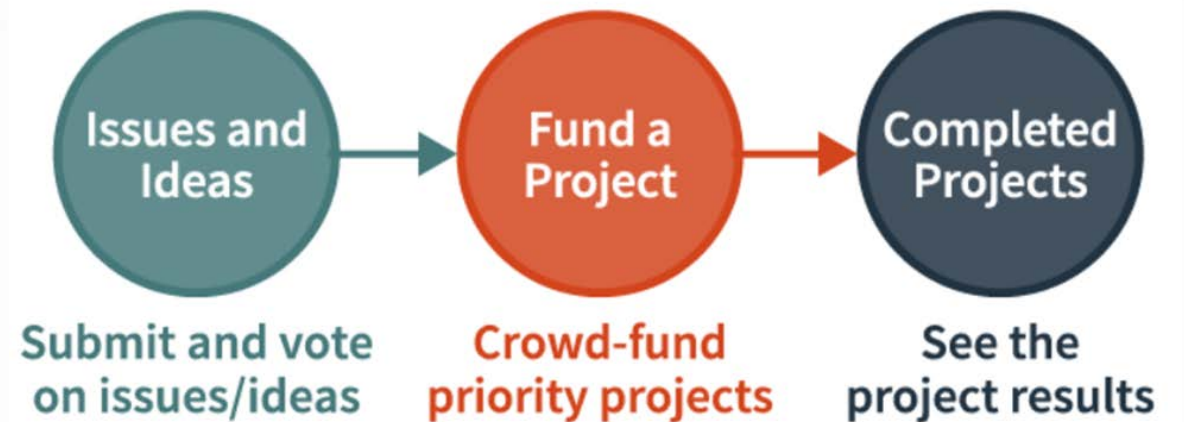

Planning Hub

- Land use related amendments to the Municipal Government Act (MGA).
- Purposes and history of planning
- Legislation, the hierarchy of plans and roles and responsibilities.
- Planning issues, trends and promising practices

Community Conserve

- A new way for Alberta municipalities to pool their resources to address common environment and conservation issues.
- Visit www.communityconserve.ca to:

Mapping the Future: Shaping your municipality through land use planning

- Betty and Truper's Presentation will be inserted here with their own template

Dialogue

Submit committee interest form by Friday, November 24!

About AUMA

Who is AUMA?

We believe that municipalities need stable and predictable funding to support their social, economic, cultural, environmental, and governance objectives. We also believe that the roles and responsibilities of municipal governments must be recognized and respected by both the provincial and federal orders of governments, and advocate for that recognition and respect. We work to ensure that everyone—at every level of government—understands that municipal governments are accountable to their citizens and are trusted to act in the best interest of their respective communities.

AUMA works to engage our members and develop strategic partnerships between all orders of government to meet municipal needs. Although many urban municipalities share common challenges, such as the need to fund core services and maintain infrastructure, we also understand the diverse and complex nature of our membership. That's why we're committed to developing solutions that respect differences.

Whether it's building and leveraging strategic partnerships, building capacity through the development of resources and tools, or developing efficient, effective business solutions, we never lose sight of the fact that every municipality is unique.
